

COURSE DETAILS

POLICIES ON BIOMEDICAL DEVICES

Timings:

Morning Session-11:00 to 12:30 IST

Afternoon Session: 14:00 to 15:30 IST

Day 1:

1. Introduction to Policy Development process: Developing policies, Drafting the policy, Testing draft policy (inviting feedback from stakeholders), Implementing policy, Post implementation changes
2. Classification of Medical Devices

Day 2:

1. Medical Device Prioritization: Need Assessment
2. Procurement and Supply Chain: Framing Technical Specifications, Procurement, Pre-Dispatch Inspection of Biomedical Devices

Day3:

1. Condemnation of Biomedical Devices
2. Calibration of Medical Devices
3. NABL 126: Specific Criteria for Calibration of Medical Devices to accredit the laboratories performing testing and calibration of medical devices

Day4:

1. Assessment of Medical Device
2. Understanding Biomedical Device Requirements
3. Managing Biomedical Devices in Hospitals

Day5:

1. National biomedical equipment maintenance program of India
2. Policies on Medical Devices in India: The Medical Device Rules 2017
