Introduction

Providing access to high-quality financial services to all sectors of the economy, including low-income households, small businesses and farmers is the key goal of financial sector. In the recent past, great strides have been made toward financial inclusion of excluded segments of populations. As a result, since 2011, about 1.2 billion adults worldwide are having access to formal banking. In emerging economics like India, China, Kenya, and Thailand, more than 80 per cent of the population are having 'access to accounts' and now moving to 'account usage' as a next step of inclusive banking and finance. These countries relied on reforms; new institutional set-up; private sector innovations; push to open low-cost accounts with the help of disruptive technologies, artificial intelligence and biometrics; large-scale usage of mobile and digitally-enabled payments. However, globally, close to one-third of adults 1.7 billion are still unbanked; in this about half of unbanked people include women, poor households in rural areas or out of the workforce. Households engaged in agriculture and small and micro-enterprises are neglected most in availing the banking services.

With the prospect of reaching billions of new customers who are engaged in farm and non-farm based enterprises, self-employment, banks and non-banks have begun to offer digital financial services by banks and other financial institutions. Innovative digital financial services involving the use of information and technology have been launched in many countries to improve the breadth and depth of the financial outreach and its utilization. As a result of the significant advances in the accessibility and affordability provided by digital financial services, millions of poor customers are moving from exclusively cash-based transactions to formal (digital) financial services. The benefits of this development include allocation of resources, improvement in technology and productivity, mobilization of savings, extension of credit, managing the risk and monitoring the use of funds for wider economic growth and development along with stability.

Objectives

The broad objective of the one week 'International Programme on Inclusive Banking and Finance' is to provide a forum to senior executives of different financial institutions from different countries to learn about the policy and (technological) innovations in financial inclusion. In addition, the programme will also provide necessary skills and perspectives to meet the challenges posed in these emerging areas of concern.

Programme Content

- ❑ Inclusive Banking and Finance: Global Perspectives
 - (a) Global experience in Social and Development Banking
 - (b) Role and Regulations of Central Bank in Development Banking and Finance
 - (c) Microfinance Models in inclusive Banking and Finance

About the Institute

The NIBM is a premier academic-cum-training institute for providing research, training and consultancy services to the banking industry and financial institutions both in India and abroad. The Institute was established in 1969 as an autonomous body by the Government of India and is supported by the Reserve Bank of India, Commercial Banks and Financial Institutions in India.

The Institute aims at promoting professionalism in the management of banks and other financial institutions by carrying out the following functions:

- ❖ Imparting training and education to bankers both in general and functional management areas.
- ❖ Conducting fundamental and applied research on problems concerning the banking industry.
- ❖ Providing consultancy and other advisory services to the industry in their problem solving endeavours.

The NIBM currently has around 30 faculty members including the visiting faculty, working in the following area groups (multi-disciplinary approach): (a) Finance, (b) Human Resource Management, (c) Information Technology, (d) Money, International Banking and Finance, (e) Rural Finance and Development, (f) Strategic Planning, Marketing and Control.

The Institute conducts the following major education and training programmes:

- ✳ Top management conferences and seminars on policy issues.
- ✳ Training programmes in functional and general management areas for senior bank executives from India and other countries.
- ✳ Programmes for development of faculty at the banks' training establishments.
- ✳ Incompany programmes for meeting organization-specific requirements of banks and financial institutions both in India and abroad.
- ✳ Conducting AICTE approved Post-Graduate Diploma in Management (PGDM) - Banking and Financial Services to provide to the financial system a pool of talented young executives on a regular basis.

The Institute has been actively involved in research on various subjects concerning the banking and financial system. It has brought out more than 100 publications in the form of books and monographs.

The Institute also brings out the following quarterly Journals in English:

- **Prajnan:** Journal of Social and Management Science (launched in 1972)
- **Vinimaya:** Presents conceptual and practical view points of both the bankers and management educationists on issues of bank management in an informal style (launched in 1976)

The Institute has contributed significantly to the development of banking and financial sector in India and other developing countries through its consultancy and policy research activities in diverse areas.

The Institute has an excellent Library with more than 65,000 books, 10,000 bound volumes of journals and 2,000 reports of various committees. The library receives more than 240 Indian and foreign academic journals on various subjects of management, information technology, banking and finance.

The Institute also has a modern, well-equipped Computer Service Centre to support its academic activities.

The Institute has excellent Administrative Support Facilities for carrying out its activities. These include reprographic services, internet and e-mail facilities, travel booking arrangements, entertainment facilities, etc. Medical facilities are also provided within the campus. The supporting administrative staff is efficient and well organized.

Reaching NIBM Campus at Pune

- Pune has few international flights like Abu Dhabhi, Dubai, Sharjah, Frankfurt. The Chhatrapati Shivaji Maharaj International Airport, Mumbai is the nearest International Airport. Pune is connected by air and rail from major metros like Mumbai, New Delhi, Kolkatta, Chennai and Bengaluru. The road drive from Mumbai is an unforgettable experience through the western ghats. The shared taxi service, luxury (AC Volvo) and semi-luxury (Asiad) buses are regularly available from airport and Dadar TT (about 15 kms from the airport). The share taxi and bus charges are about Rs. 800 and Rs. 1000 per head respectively. The road journey of 200 kms from Mumbai to Pune normally takes around 3.5 hours. The road map of Pune to guide the arriving participants is given overleaf.
- **Transport Facilities at Pune:** Prepaid Taxi/Auto services are now available at the Pune airport/railway station (16/9 km distance from NIBM Campus). ***As such participants are requested to make their own transport arrangements at Pune to reach the campus.***

Standard taxi services available at Pune Airport.

- In case of any requirements on arrival at Mumbai, foreign participants may contact on Tel : 09867885332 (Sanjay Redkar)
